SUMMARY

Software Engineering student with a curiosity for solving real problems and building useful applications. Adaptable, consistent, and a strong team player, looking for an opportunity to learn, build, and contribute.

EDUCATION

Kamla Nehru Institute of Technology, Sultanpur Expected 2026
Bachelor of Technology, Computer Science and Engineering(CGPA of 7.81)

St. Don Bosco College, Lakhimpur Kheri
Class 12 (Percentage - 92%) 2021

St. Don Bosco College, Lakhimpur Kheri
Class 10 (Percentage - 94%) 2019

SKILLS

Languages	Python, C++,SQL
Web	HTML, CSS, JavaScript, React, Node.js
Core	Data Structures and Algorithms, DBMS, OOPS, Operating Systems
Tools	Git, MySQL

PROJECTS

Healthtrack- Emergency Health Data System([Github link](#))

- Built a full-stack emergency health data system enabling fast and secure access to patient records
- Implemented role-based authentication to ensure data privacy and controlled access
- Optimized backend and database operations for low-latency data retrieval in critical scenarios

Techstack - HTML, CSS, JavaScript, Node.js, MySQL

Student Result Management System

- Built a database-driven system using Python to manage student records and streamline result processing
- Designed and implemented efficient SQL queries for fast data retrieval and updates
- Automated grade calculation and result generation, reducing manual effort and errors

Techstack - Python, MySQL, JavaScript

EXTRA-CURRICULAR ACTIVITIES

- Vice President, Innovation Incubation and Startup Foundation — led initiatives and coordinated events
- Captain, College Basketball Team — led team coordination and strategy in competitive events
- Media Head, Effulgence(Techfest) — managed promotions and outreach
- Event Head, Google Developer Groups — organized technical events
